## TROOPS NOT OUT.

THE GOVERNOR DENIES CALLING OUT THE MILITIA.

## NO FURTHER VIOLENCE.

Majority of Strikers Denounce the Riots—Further Trouble Not Expected.

Special to the DEMOCRAT.

TOPEKA, Kan., July 21.—Governor Lewelling this morning denied the statement that he had ordered the troops to Pittsburg and Weir City to prevent further violence on the part of the striking coal miners, neither had he ordered Major General Percy Daniels to report at Pittsburg to take command.

The governor says he has not yet been officially notified of any trouble and he is inclined to believe there will be no further violence.

Adjutant General Artz has received letters from Weir City written after yesterday's battle and they state that the riot is not approved by the majority of the miners and that further trouble is not now likely. There was great excitement when the news of yesterday was received, but much of it has passed away and it is hoped that cooler headed, law-abiding strikers will be able to control the lawless element.

### Want Federal Protection.

TOPEKA, Kan., July 21.—The mine owners are still uneasy and to-day, as all the federal judges are out of the city, they prepared the necessary papers and sent a special train to Denver, where Judge Ryan is holding court, asking that the strike district be placed in charge of the United States Marshal.

The major general of the Kansas National Guard has gone to Pittsburg to be in readiness to take command of the militia in case further trouble arises.

### AFFAIRS AT PITTSBURG.

Stockades Completed—Great Excitement Witnessed During Last Night.

Special to the DEMOCRAT.

PITTSBURG, Kan., July 21.—The intense excitement which prevailed here yesterday afternoon on account of the riot at Weir City yesterday has subsided to a great extent. Noah Allen, a Topeka attorney arrived last evening to defend Walters, Bossfield, Lacy and others of the strikers arrested, should they need legal advice. A special train on the Frisco left here last night for Weir City loaded with Winchester and deputies to guard the peace in that section. There has not been any trouble at Litchfield up to today noon.

Last night there was a great deal of uneasiness and noise. A number of men marched up and down the road before the stockade firing guns. The carpenters working on the stockade continued their work and cots had been provided for the men to sleep on inside the fence and at night nothing can be seen except the sentinels as they pace to and fro. By this evening the stockade will be about completed.

### Colored District Conference.

The arrangements are all completed and programme issued for the second meeting of the district conference of the African M. E. church and Sunday school convention, to be held in Sedalia July 25, 26, 27 and 28.

### An Excursion Sunday.

An excursion train will leave here at 8:30 a. m. Sunday for Warrensburg, carrying visitors to the annual jubilee and basket meeting of the colored christians at Pertle Springs. Returning, the train will leave Warrensburg at 7 o'clock p. m.

### Visiting at Centertown.

Mrs. Mary McQuiston and Eugene McQuiston, of Sherman, Texas, left yesterday to visit relatives in Centertown, after a pleasant visit with W. J. Letts and family.

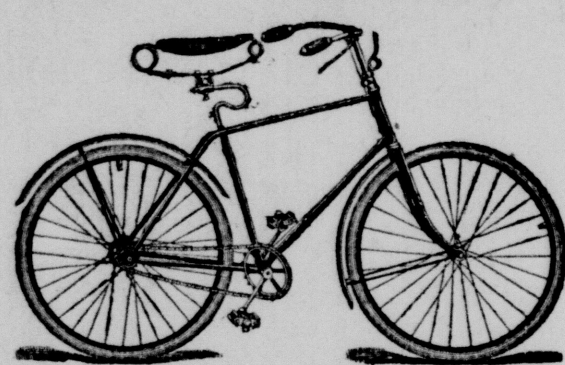

### Taken Suddenly Ill.

Otis Wright, who clerks for W. J. Letts, was taken suddenly ill yesterday and had to be taken home from the store.

### Married by Justice Levens.

### STRIKERS ASSAULT MINERS WHO WERE AT WORK.

### BLOODSHED THE RESULT.

Winchesters, Clubs and Revolvers Freely Used—Great Excitement and Fear of Further Trouble.

WEIR CITY, July 21.—The practice pursued of stopping the strip pit miners from working resulted, yesterday afternoon, in a fierce battle at Clements' pit, one mile south of this city.

At that hour 500 men, headed by 100 women, visited the neighborhood of the pit and sent a committee to try and induce the miners to quit.

This they refused to do, and when the committee reported, the entire body moved on the works to force the men out.

When they had passed the trespass line they were fired upon by the strip men and a general battle ensued, in which Winchester rifles, pistols and clubs were used. Over 100 shots were fired, and it is a wonder that more were not wounded.

One man was wounded in the forehead, another in the leg, a boy in the foot and a French woman in the arm. None of the wounds were fatal.

A number were badly beaten with clubs and clubbed guns.

The city marshal and deputies, it is said, were afraid to tackle the crowd.

The men in the strip were defeated by the strikers and fled for their lives, pursued by the mob, who, it is reported, would have lynched

## THIS IS CHOLERA YEAR.

In order to prevent CHOLERA and to keep the system clear from MALARIA use Wood's Celebrated Cathartic Pills. These pills are also an excellent remedy for sallow complexion, skin diseases. Nothing can excel them for a blood purifier. These pills have a world-wide reputation for Indigestion, Sick Headache, pain in the head, side or back and Liver Complaint. Try one box and you will be convinced. Over 300,000 boxes are now being sold annually.

## Wood's Magic Oil or King of Pain.

An external and internal remedy, has no equal for the cure of Cholera, Cramps, Diarrhea, Sprains, Bruises, etc. These remedies should be kept constantly on hand and used liberally when symptoms of the above diseases make their appearance.

These remedies can be purchased at the Opera House Drugstore and at most all first-class drugstores.

then had they been caught. There was an enclosure around the pit which was broken into by the strikers. The owner of the pit, Clements, his son and a man called "Big Dick" Reed, are said to be the ones who did the shooting, and it is reported that they gave themselves up and were run out of the country for safe keeping. The excitement was intense after the shooting and it was feared matters would become worse, but a prominent striker, George R. Fulton, made the crowd a speech in which he advised them to keep cool and counseled peace.

There has never been such a feeling of alarm and insecurity in Weir City. There is talk on every hand of burning and violence. The city officers have been notified and asked to take precautions, but they take no action. There is bitter feeling against the sheriff because of his refusal to protect property. He said last night that Granat's shaft might have three deputies today, but they must not have guns. It is openly charged that, being elected as a populist, he does not dare offend the leaders among the strikers with whom he consults. Many of the strikers boast that they have the state administration and the county administration with them and can do pretty much as they please. It has been rumored that the residence of the Kansas and

### FEARFUL BRUTALITY.

A Drunken Father Dashes His Child's Brains Out Against a Wall.

TOLEDO, O., July 12.—James Cook, of Pemberville, came home in a drunken rage and beat his 5-year-old boy to death by swinging him by the feet and dashing his brains out against the wall. His two daughters, aged 11 and 13, were treated in much the same manner and may die. A desperate attempt was made to lynch him after his arrest, but he was spirited away to another jail.

**THE DEMOCRAT,**  
Sedalia, Mo.

Office: 307 Ohio St. Telephone 232.

Official Paper of the City of Sedalia.

THE Sedalia business men have confidence in the future and are getting ready for a big trade this fall.

SEDALIA has had fewer failures this year than are usually expected in the ordinary course of business. This speaks well for the city.

THE street railway, the railroads and the city should agree upon some plan whereby a bridge crossing can be secured for the electric road running north.

MISSOURI has only 351 clerks employed in the departments at Washington. She is entitled to 849. Hence there are good jobs in Washington for about 500 more Missourians.

OF course this country don't want to see war anywhere, but if they do get to fighting in Europe we will furnish both sides with meat and bread as long as they are able to pay for it.

THERE is a great turmoil in Europe over the "eastern question." This little misunderstanding between France and Siam interests all of the great powers, and it is possible that serious complications may arise.

THE comptroller of the currency promises to do all in his power to aid the Denver national banks to resume. These banks are all in a sound and satisfactory condition, with assets greatly exceeding their liabilities.

THERE has been a great deal of fun poked at St. Louis about her conservative methods and her lack of enterprise. This conservatism, however, has its good features, and St. Louis has probably felt the financial stringency less than any other city in the union.

THE careful observer will notice that the depreciation in the price of silver about keeps pace with the depreciation in the price of wheat, cotton, wool, corn, manufactured goods and other staple products, and if he studies the situation closely he will conclude that the "depreciation" in prices of other articles really amounts to the appreciation in the value of gold.

SOME of the republican papers are trying to make their readers believe that ruin and bankruptcy threatens the manufactories of this country because of probable tariff legislation. Having worked the "financial" scare for all there is in it, they are now trying to bring about a new stampede. They forget that the uneasiness they cause by sensational publications is as injurious to republicans as to democrats.

It seems that Patrick Gallagher, the Pennsylvania convict and confessed poisoner, is an all round liar. He first confessed participating in a plot to poison non-union workmen at Homestead, and implicated Hugh Dempsey, a prominent labor leader. The other day he "confessed" that the story which convicted Dempsey was a falsehood; now he confesses that his confession is a lie, and any story he may tell may well be taken with a great deal of allowance.

THE more the subject is considered the more certain it becomes that when a street car line crosses a railroad it should be on a bridge. These grade crossings are danger-

ous in spite of the watchfulness of railway and street car employees. In cities where they exist frequent fatalities are reported, and in Chicago the deaths from accidents at grade crossings average one per day the year round. There will also be some danger connected with the transfer at Ohio and Main. By all means let the crossing be on a bridge somewhere.

THE closing down of the silver mines and smelters in Colorado as a result of the war on silver has thrown thousands of men out of employment. Efforts are being made to raise funds to send these unemployed men east where it is hoped they can find sufficient work to keep them from starvation. Of course they will come in direct competition with laboring men in the eastern states, but it is probably the best that can be done unless the people give congress to understand that the goldbug conspiracy must be nipped in the bud.

FIGHTING has commenced between the authorities and striking miners in Kansas. Of course this means that the strike will end disastrously for the men. The American people do not look kindly upon the men who resort to violence to settle a question of wages, or who, not desiring to work themselves, resort to violence to prevent others from doing so. The newspapers report the fight of yesterday as having been caused by the attempt of the strikers to compel men who were not strikers to quit work. Such rank oppression will nearly always cause a fight in America, where the working man feels himself a sovereign to do as he pleases with his own labor.

LET it be remembered at all times that there has no great calamity befallen this country to damage property or depreciate values. We have had no war, famine or pestilence within recent years. Our lands, our mines and our manufactories are as productive as ever, and there is no ground whatever to believe that we are no longer able to hold our own with other nations in the race for wealth. The water has been squeezed out of a lot of speculative properties and the natural results of our trade relations with Europe have been seized upon by designing manipulators of finance to scare the American people. As soon as the average citizen has an opportunity to think, however, he sees the folly of the whole thing. As proof of this, there are more banks resuming operations every day than there are suspensions.

THERE is a great deal of good, hard sense in the following suggestion of the *Republic*: "A safe deposit company can stand a run. A bank cannot, if a run means the withdrawal of the great bulk of deposits. When a community transfers its money from a bank to a safe deposit vault it gains something in control of cash and loses a great deal more in stagnation of business. Under the present system banks are the instruments with which capital is used in trade and industry. Nine out of ten are perfectly safe and yet nine out of ten can be closed by a prolonged run. A sensible town will help the banks in lending money to business. A foolish town will make lending impossible. There are a few foolish towns that have hurt themselves by crowding the banks needlessly."

### FAVOR FREE COINAGE.

The St. Louis *Chronicle* recently addressed a circular letter to the democratic newspapers of Missouri asking for an expression of opinion upon the financial questions that will be before congress.

In speaking of the answers received the *Chronicle* says:

"While the *Chronicle* had a very good idea of how Missouri democrats stood in this matter, it has been surprised at the entire unanimity with which democratic editors express their views in opposition to contraction. In over sixty letters received, each one representing an influential democratic newspaper, there is not one in favor of the gold basis or the cessation of silver coinage. Only two are for any limitation whatever of the coinage, and these are for 'free coinage of the American product.'"

All the rest are squarely and uncompromisingly in line with Mr. Bland for the free and unlimited

# Removal Sale.

**E. E. Johnston,**

coinage of gold and silver. Without any exception whatever they denounce contraction to the gold basis as ruinous to the west and south and declare their intention to resist it.

The *Chronicle* regards their expression as the most significant event in the politics of the year. Their complete solidarity on this issue is almost, if not quite, without precedent, and the vigor with which they express themselves shows how little their views have been affected by newspapers subject to the influence of the money centers.

In our judgment, this publication is more important in foreshadowing the action of Congress at the extra session than anything that has hitherto appeared. And it shows, too, where the people of Missouri and of the Valley States generally will stand in the congressional elections next year, and the presidential election of 1896."

### PARSONS MAYOR ARRESTED.

#### Charged With Malfeasance for Not Carrying Out Prohibitory Law.

PARSONS, Kas., July 21.—The war on violators of the prohibitory law in this city reached its height yesterday when a warrant was sworn out for the arrest of J. M. Gregory, mayor of the city, for malfeasance of office. This is one of the first actions brought into the state under that provision of the prohibitory law which makes it incumbent upon the mayor of cities and towns to inform the county attorney of any violation of the liquor law. The cases will not be heard before the October term of the district court. The arrest of Mayor Gregory has created a flurry of excitement and the affair will be watched with great interest all over the state.

### Dropped a Dog.

Miss Madeline Squires arrived from El Dorado Springs this morning, and has almost entirely recovered from the accident she met with at Forest park a week ago to night. She made a successful ascension at El Dorado Springs yesterday, and dropped a dog from the balloon when up 1,000 feet. The canine was attached to a parachute and alighted without being harmed in the least. The daring young woman will make an ascension and parachute leap at Association park to-morrow, and the indications are that thousands will witness it.

### Friday's Police Court.

There were two unfortunates in the police court this morning. One was a telegraph operator from Pueblo, who was fined \$5 for drunkenness. He claimed to have good letters, but an examination of them revealed that he had been discharged as an operator for drunkenness, and in consequence he was sent below. The second victim was fined \$5 for trespass, but was given a stay of execution to leave town.

### Another Match Made.

Lou Baptiste, champion light weight wrestler of St. Louis, has deposited \$25 for a Graeco-Roman match with Wm. Echardt, champion heavy weight of Kansas City in response to a challenge from the latter. The match will take place in Sedalia in the near future.

### MONEY COMING WEST.

The *Financial Scare Almost at An End.*

The *Republic's* New York correspondence has the following cheering news:

The subtreasury exchanged nearly \$1,000,000 in small bills to-day for large greenbacks and gold certificates. About \$200,000 of this was shipped to Philadelphia, \$200,000 to New England and other points and \$600,000 to St. Louis. Regarding the shipments of currency to St. Louis the president of one of the large banks which sent out the money said that he did not regard the demand from that center as at all serious.

"St. Louis," he said, "is doing what Chicago ought to do, namely, rallying to the assistance of her neighbors instead of hoarding her cash, and, like all the other big cities, it finds it convenient to call on New York for money to strengthen its own resources. St. Louis and Kansas City will soon begin to reap the benefit of the forwarding of cotton, and some corn is already being forwarded. Therefore I don't think any trouble need be anticipated there. Similarly I do not view with alarm the suspension of the banks in Denver. They are probably nearly all solvent and have closed temporarily for their own protection, which was the best thing for them to do under the circumstances. The threatened closing of the mills in the east I regard as a much more serious feature of the present situation than the closing of the Denver banks."

### BURGULARS CAPTURED.

The *Montserrat Crackman Taken in Custody at Last.*

Marshal Morrison, in company with P. D. Fitch, in answer to a telegram, went to Pleasant Hill last evening to identify and bring back the burglars who broke into Fitch's store at Montserrat a few nights ago.

Upon arriving there the burglars were searched and upon their person was found some old mutilated coins, pocket knives, shirts, etc., which Mr. Fitch at once identified as his property. They were brought back and placed in jail here. The names of the parties are C. O. Masters and Wm. Rose, aged 17 years, so he says.

Masters is a bridge painter and recently worked on the Missouri Pacific line near here. He had a good job and had a wife at Atchison, Kas. Masters is a young fellow about 21 years of age and says he has been in trouble before.—*Warrensburg Star*, 20th.

### New Postmasters.

Postmasters were appointed in this congressional district yesterday, as follows: Buffalo, Dallas county, J. E. Ballard, vice J. S. Hazlett, resigned; Long Lane, Dallas county, W. C. Lindsay, vice B. K. Hutchinson, resigned; Lone Spring, Hickory county, C. H. Franklin, vice E. Thurston, resigned; Wana-maker, Saline county, C. M. Rucker, vice C. L. Ryan, resigned.

### The President.

BUZZARD'S BAY, MASS., July 21.—The president passed a very quiet day, and nothing transpired worthy of note. A part of the day was spent at Gray Gables with his guests, Col. Lamont and Dr. Bryant. Later in the day the party took a short sail in the Ruth, in

### A SHAM BATTLE.

#### The Sedalia Rifles Participated in it at Nevada.

For a half hour this morning an impetuous but bloodless battle raged near the ice plant, says yesterday's Nevada Mail. It was known as an open order skirmish. There was marching and counter marching, spirited advances and masterly retreats.

The Sedalia and Lamar companies were pitted against the Nevada and Butler. There were about 500 spectators, and would have been several times that many had the exact hour of the engagement been more generally known.

The companies would move upon each other and fire when the distance between them was a hundred feet or more. Those who dropped were carried off in stretchers, and promptly treated at the surgeon's tent.

"Whenever one of the soldiers got thirsty he fell," said an envious spectator, "and was promptly carried off and given a drink." The few mock fatalities fully contradicted this statement. If the rule had been understood the whole army would have been decimated at the first volley.

Most of those who fell, did so as a part of the pageant, but one or two, who are elsewhere mentioned, really succumbed to the heat but soon recovered. There were a few wise-ones in the crowd who were inclined to quote that immortal passage from the second reader recounting the exploits of the mullen stalk soldiers. Those who were better versed recognized the fact that they were looking upon that class which makes the grandest soldier the world has ever known, the young American citizen.

### Roll Ten Pins.

The bowling alley at Forest park is now open. Go out in the evening and have a game. Last car leaves the park for the city at 10:30 p. m.

### Capt. Demuth's Good Record.

The best record yet made at target practice was that of Capt. Demuth, of Co. D, who yesterday scored 21 at 100 yard range, and 19 at a range of 200 yards. This is out of a possible score of 25.—Nevada Mail.

### Beheaded His Victim.

BRANFORD, Fla., July 21.—A daughter of Carr Elliott, one of the leading planters of Lafayette coun-

ty, was assaulted and murdered yesterday on her father's plantation by a negro convict, who was a "trustee" and allowed to go about on business and errands from the convict camp near by. The girl's head was found completely severed from her body and hidden in a sink hole near where the deed was committed. A posse has gone to the camp to demand the delivery of the negro to them, and if they succeed in getting him he will be lynched before he is 100 yards from the stockades.

### TO KEEP "SOONERS" OUT

#### Regulations to Govern the Opening of the Cherokee Strip Recommended.

GUTHRIE, Ok., July 21.—Governor Renfrow, United States Marshal Nix and District Attorney Speed have united in certain recommendations to the president in regard to the regulations governing the opening of the Cherokee Strip. They suggest that the border of the Strip be guarded by a continuous line of infantry and people only be allowed to enter at certain prescribed points, where officers will give the signals, and that a detachment of soldiers be stationed at each county seat to keep out the crowd until the hour for throwing them open, which shall be on the day following the opening of the land. Everybody shall be removed from the strip at once, and from now until the day of opening any person caught upon the land will be photographed and his description taken and filed at the land office, which will be indisputable evidence of his being a "sooner." If these precautions are carried out perjury and contests will be reduced to a minimum, and it is very probable the department will act upon them at once.

### Booming the Academy.

Col. Leslie Marmaduke, of the Marmaduke Military academy, is in the city visiting friends and spreading the fame of his academy. He departs for Carthage on the evening train. The academy is growing rapidly and is taking rank with the leading educational institutions of the state.—Springfield Leader.

### The Cholera at Naples.

WASHINGTON, D. C., July 21.—Dr. Wyman of the Marine hospital service is awaiting further reports from Naples, Italy, as to the progress of cholera with anxiety.

"If additional reports show that the disease was imported into Naples," said Dr. Wyman, "it will be to that extent encouraging as tending to show that the inhabitants of Naples are free from the germs of the disease and that there is little fear of its spreading to other places. If, however, the outbreak originated in Naples there is likely to be an epidemic there, and great precaution must be used against its introduction into other countries." The hospital people believe the disease was not imported.

THE RAILROADS.

Sam Irvin will arrive to-morrow morning on the "flyer" from Texas.

Engines 174 and .63 have been turned out of the M., K. & T. shops at Parsons, after a thorough overhauling.

The Chicago, Burlington and Quincy offers employees of the Missouri, Kansas and Texas, and their families, half rates to Chicago.

Representatives of the Kansas railways have appealed in vain to the state board of railway assessors to reduce the assessed valuation.

Depots have been erected and telegraph offices established at Welch and Big Cabin, on the Cherokee division of the M., K. & T.

The "Katy" shops will close at noon to-morrow, but the Missouri Pacific shops will remain closed the entire day, and thus all of the employees who care to witness the bicycle races can do so.

General Manager Doodridge, of the Missouri Pacific, who has been inspecting the lines in Kansas, makes a satisfactory report of the condition of the crops generally, except in the western portion of that state.

Dave Lister says the switchmen have arranged a game of ball with the cigarmakers, to be played one week from to-morrow, at Association park, for the benefit of the hospital fund, when the weed-rollers are to be knocked out completely.

Conductor Glazier, of the Santa Fe, whose coolness and presence of mind prevented the Santa Fe express train from being robbed at Ponca several weeks ago, has been granted a ten-days' layoff and all expenses paid at the World's fair during that time. This is one way General Manager Frey has of awarding an employe for special services.

General Manager Doodridge, of the Missouri Pacific, has received a personal letter from President S. H. H. Clark, of the Union Pacific, who is sojourning in the mountains of Pennsylvania. Mr. Clark states that his health is improving slowly but surely, and he hopes to derive great benefit from the pure air of his surroundings and absolute rest. His wife and son are with him.

Kinney Has a Job.

Capt. John J. Kinney, of this city, is at present engaged with others in unearthing what are alleged

to be extensive frauds on the Santa Fe system.

The frauds, it is said, have resulted in a loss to the road of \$17,000 a month. The conspiracy is far-reaching in its ramifications, and included, it is said, various officials, from assistants to the division superintendents down to section bosses.

The scheme was to pad the payroll with names of fictitious men, and to divide the amount thus secured among various conspirators. When the last pay car went out notice was sent ahead that each man must apply in person for his money. It is said that the number of persons who sent word that they were too ill to go down to the station to get their money was astonishing. Sensational arrests are expected soon.

A RATTLING RACE.

M. B. Coleman and a Customer Named Marsh Had It This Morning.

A sensational foot race was run through several of the principal streets of the city this forenoon, the parties interested being M. B. Coleman, the Ohio street grocer, and one of his creditors by the name of Marsh.

It appears that Mr. Marsh is making arrangements to return to England, and Mr. Coleman believed that he was to be left with the sack to hold—that is, that Marsh intended leaving without liquidating his indebtedness to Coleman.

The gentlemen met in front of the Bazoo office, when Marsh, with a view to escaping, ran across the street and dashed into the court house, with Coleman close upon his heels.

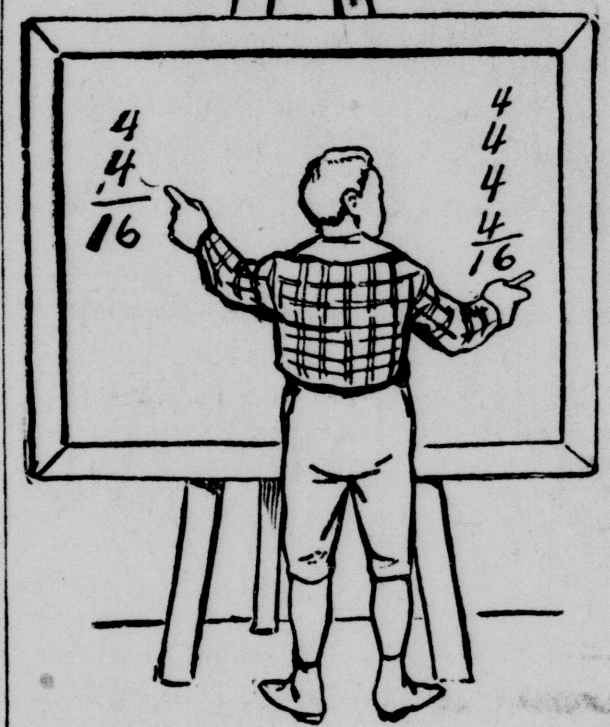

The unusual sight attracted a large number of people, many of whom joined in the chase, while others merely stepped out of the way and yelled, "Go it, legs!"

Through the court house the two men ran at a Nancy Hanks gait, out on to Fifth street, east on Fifth to Massachusetts, south on Massachusetts to Broadway, east on Broadway to Lafayette and south on Lafayette to Twelfth, where Coleman overtook his man, after a crowd of fifty or sixty people had collected.

Both men were completely exhausted, and it did not take Marsh long to agree to pay his bill, after which he was released and peace and quiet again reigned.

A Little Daughter.

M. L. Andrews left on the noon train yesterday for St. Louis to visit his wife, and an hour after his departure a telegram came to his address informing him that Mrs. An-

draws had presented him with a fine daughter. As the message was sent by the grandfather of the child, Frank Kasse doesn't place much credence in the statement that the babe "weighs nineteen pounds."

## TO-NIGHT'S TOURNAMENT.

Arthur Warren Will Arrive From Jefferson City on the After-noon Train.

The sparring and wrestling tournament which has excited so much comment will take place at Forest Park theatre to-night. Everything is in readiness for a most interesting series of contests.

Arthur Warren, of Jefferson City, who has defeated every one he has went against, will be here this afternoon to spar with McFadden in the limited round contest. Mr. Warren is rated very high by all who have seen him spar.

H. J. Lartono, who was to come at first, and who thought Jefferson City athletes once were invincible, is no match for Mr. Warren. The latter is in the fighting business, and is willing to make a match with any living man of his weight—135 pounds—so Lartono says.

Lou Baptiste and Hy Ripken will wrestle a five minute bout for a fall. Eldred Harrison will also give Baptiste a five minute tussle.

But one of the most interesting events of the evening will be the wrestling match, catch-as-catch-can style, best three out of five falls, between J. C. Bloch and Joe Watkins, for a solid gold \$25 medal. Both men have been training hard for this match. Baptiste has been practicing and training Watkins; Harrison has been working with Bloch. The sparring ring bouts between local men are expected to be of special interest. Many of the boys have been training hard and faithful and will put up fine contests.

## Two Delightful Socials.

There were two delightful lawn socials in Sedalia last night. One was given by the W. R. C., at the hospitable home of Mr. and Mrs. John Holman, on East Fifth street, where the lawn was brilliantly lighted by Chinese lanterns, etc., and a large number called to partake of the excellent refreshments served.

The second one was given at the residence of Mr. and Mrs. Gus Schneider, at Wilkerson and Quincy streets, by the ladies of the German Evangelical church, and a most delightful evening was passed.

In both instances quite a clever sum was realized, and the DEMOCRAT congratulates the ladies on the success achieved.

## Out for a Drift.

The Oriental Zouaves, about twenty strong, gave an excellent drill at the kite-shaped track last night. Capt. Gilfillan is rapidly bringing the boys up to a high degree of proficiency, and but a short time will elapse until they divide military honors with the Rifles.

The Zouaves expect their guns from St. Louis within the next day or two, after which they will be strictly "in it."

## A TERRIBLE CRIME.

Outrage and Murder Near Ennis, Tex., Wednesday Afternoon.

DALLAS, Tex., July 20.—Miss Frankie Jehnke, a 16-year-old daughter of a Bohemian tenant on Joe Bowen's farm four miles from Ennis, went to water a horse some distance from home yesterday evening and not returning in a reasonable time, search was instituted, with the result of finding that she had been outraged, murdered and thrown into a creek. Edward House, a negro employed on the same farm, drew suspicion to himself by leaving. Evidence enough was found to convince the neighbors that he was the guilty party. Hounds were put on his trail at noon to-day and he was in a few hours run down and captured in the brush. A mob of several hundred men gathered to lynch him, but the officers succeeded in evading them and in getting the negro on the Central train at Garrett. When they reached Dallas they quietly put him on the west-bound Texas and Pacific train to avoid a mob here. The supposition is they will place him in some western jail for safe-keeping until the mob cools off.

## STUDY BUGS.

A Growing Use for Entomologists in Agricultural Districts.

The Colorado potato-beetle is practically under the thumb of Paris green. The codling moth whose larvae infest our apples, is readily controlled by spraying the trees with the same poison at the proper season. So with many other pests of the farmer and fruit-grower. But, as Professor Riley estimates that one-tenth of our agricultural products is annually ruined by insects, it is evident that plenty of work remains to be done in this direction.

The total annual loss from insects in the United States is placed by the best entomological authorities at about \$380,000,000. As the entomologists of the various state agricultural experiment stations and of the national department of agriculture pursue their investigations further this enormous loss will be greatly reduced.

When their labors become better known and appreciated their opportunities for work, as well as the means at their disposal, will be increased. Many more hands and brains will be needed to do the work, and young men and women trained in entomology will be called for as assistants.

Most of the states have now established agricultural experiment stations, and at the majority of these an entomologist is busily at work on his specialty. Some of the agricultural colleges give courses in economic entomology, and as the farmers learn to better appreciate its money value to them they will devote more and more time to its study.

The implements needed for the collection and study of insects are few and inexpensive. For young persons whose happiness lies in outdoor life and the study of nature no department of natural science offers a more inviting and promising field than applied entomology.

## A NATURAL MISTAKE.

The Man Asked for Room No. 13, and the Landlord Was Suspicious.

He registered in fine style, but when he asked to be shown to his room the landlord requested him to wait.

"You see it takes some little time to change the furniture and get things ready," he said in a mysterious way. "He must know me," said the guest as he walked off with a strut.

Pretty soon the bell boy told him his room was ready. He followed him to it and found that every article of furniture had been swathed in quilts and the carpet covered with an old matting.

"What does this mean?" he asked of the boy.

"Dunno," said the imp with a grin. "Then he sent for the landlord and demanded an explanation."

"Oh, it's all right. You see we must protect ourselves."

"I don't understand."

"There'd be the coroner's inquest and all the muss."

"Good heavens, man, what do you mean?"

"Don't you intend to commit suicide?"

"Jerusalem, no!"

"Then why did you ask for No. 13?"

"Because it's my luck number. Oh, ha! ha! I see. Well, just take this rubbish away and give me a chance to be comfortable. I haven't the least idea of shuffling off yet."

The landlord apologized, and had the room restored to its normal condition.

## A CASE OF SKEPTICISM.

A Child Who Would Not Believe in Wholesale Executions.

A well-known New York artist tells this story of himself:

"While we were spending the summer at our country home a little girl called to see my wife. As she was engaged I attempted to entertain the child by showing her pictures of famous French women. The first was Charlotte Corday. I gave a brief account of her life, and finished by saying they cut her head off! The child caught her breath, but said nothing. The next picture was that of Mme. Roland. I told about her, and finally said, 'And they cut her head off.'"

"The child's face grew rather incredulous; but still she said nothing. The next face was Marie Antoinette's. 'Oh!' she exclaimed. 'What a beautiful lady! How lovely she is.' 'Yes,' I answered, 'she was perfectly lovely, but they cut her head off.'"

"This was too much. The child arose, and looking at me in the most indignant way, said: 'Humph! What do you take me for? I ain't so green as I look!'"

## The Snub Nose.

Owners of the snub and the celestial nose will find little comfort in the dicta of "nasology." They indicate "natural weakness, mean, disagreeable dispositions, with petty insolence and divers other characteristics of conscious weakness which strongly assimilate them." Nevertheless, the "celestial" is, by virtue of its great length, decidedly preferable to the snub, and is not without some share of small shrewdness and foxlike common sense, on which, however, it is apt to presume, and is therefore a more impudent nose than the snub.

## A Borneo Custom.

Charles Horse, an explorer, recently made a trip up the Baram river, in Borneo, and noted several strange customs practiced by the natives. One night he slept in a native house, and upon awakening, was surprised to find at the head of his bed a large box, which proved to be a coffin. On inquiry he learned that the coffin contained the mortal remains of the chief's late wife. He found that it was the custom of these savages to keep a corpse in the house for three months before burying it.

## Comparison of Exports and Imports.

WASHINGTON, July 20.—The chief of the bureau of statistics reports that the total values of the export merchandise from the United States during the six and twelve months ended July 30, 1893, as compared with similar exports during the corresponding periods of the preceding year, were as follows:

Six months ended June 30, 1893, \$388,155,440; same period in 1892, \$479,152,953; twelve months ended June 30, 1893, \$847,423,147; same time in 1892, \$1,030,288,148.

The values of the imports were as follows:

Six months ended June 30, 1893, \$496,605,701; same period in 1892, \$431,747,541.

Twelve months ended June 30, 1893, \$941,076,126; twelve months ended June 30, 1892, \$827,402,562.

CATON'S Nerve Tonic and Vitalizer.

QUICKLY CURES General & Nervous Debility, Spinal Exhaustion, Neurasthenia, etc.

Completely, Perfectly and Permanently Rejuvenating the Vital Energies; Increasing Nervous Power, Renewing the Ambition of Youth and the

COURAGE OF MANHOOD; Restoring to Enfeebled, Enervated, Exhausted, Depleted or Overworked Men and Women

Perfect Constitutional Powers. Its extraordinary curative power manifests itself almost immediately it is taken. On this point the evidence of those who have taken it is uniform and positive. They say they can feel the effect of every dose doing them good. It is a powerful nerve invigorating tonic, imparting its restorative influence through the medium of the nervous system to every organ and tissue in the body. It makes but little difference whether the condition of the system is one of nervous exhaustion, overwork, or certain mischievous indiscretions; or whether the broken down condition is caused by one name or other, so long as there is nervous exhaustion, general or local weakness—so long as enervation and debility are the type of the ailment, this is the remedy.

THOSE WHO SUFFER from the results of over-mental or physical exertion, hardship, exposure, hidden drains, caprice, or who have brought upon themselves a series of afflictions by ignorantly or wilfully violating nature's laws, will find in Caton's Vitalizer and Nerve Tonic the remedy for their certain relief. It speedily removes all evidences of progressive physical deterioration, and restores the enfeebled energies to their natural vigor.

WHENEVER THERE IS any weakness of the vital organs, nervousness, prostration of the physical or mental energies, confusion of ideas, lack of self-confidence, irritability of temper, melancholy, cowardice, weakness of the knees and back, palpitation of the heart, dragging pain in the loins, headache, irritation of the kidneys and shoulder, milky urine, pernicious and hidden wastes, resulting in a failure of the mental and physical powers, constituting an impediment to success and unfitting him or her for the duties and responsibilities of life, it is the remedy par excellence.

A single package will be sufficient to inaugurate the work of regeneration, and cure in many cases. But stubborn cases, upon their own merits, will require a course of treatment from observation. For \$1.00 per package, or 6 packages for \$5.00. Address all orders to CATON MED. CO., Boston, Mass.

## OUR MANY LANGUAGES.

Statistics of the Different Tongues Spoken by the Human Race.

Some interesting statistics have been compiled by a Frenchman respecting the different languages spoken in various parts of the world. He states that the language in which Shakespeare and Milton wrote was then that of less than 6,000,000 human beings. French was the mother tongue of at least 30,000,000 people at a time when English was spoken by less than 16,000,000, and 50,000,000 of French speaking people were living when the revolution broke out in 1789.

Between forty and fifty years the English language equaled the German in the number of those who spoke it, and now the latter is left far behind. German is now spoken by 10,000,000 persons in the Austro-Hungarian empire, by 46,000,000 in the German empire, by 40,000 in Belgium, and by about 2,000,000 persons in Switzerland. German is also spoken by about 2,000,000 persons in the United States and Canada, giving a total of about 60,000,000 who use the German language.

French is spoken by 38,000,000 inhabitants of France, by the 2,500,000 people in Belgium, by 200,000 in Alsace-Lorraine, by 600,000 in Switzerland, by 1,500,000 in the United States and Canada, by 600,000 in Hayti and by 1,500,000 in Algiers, India, the West Indies and Africa—in all about 45,000,000. English is spoken by 37,000,000 persons in the British Isles, by probably 57,000,000 of the 60,000,000 inhabitants of the United States, by 4,000,000 persons in Canada, by 3,000,000 in Australia, by 3,700,000 West Indians and by 1,000,000 in India and other British colonies, bringing the total of the English-speaking race to over 100,000,000.

## A LIFTED MORTGAGE.

How Edwin Booth Did a Good Deed and Was Found Out.

It was a sunny day and the Rialto was crowded. The Rialto is the place where actors congregate in New York. An old man stood on the corner, talking to a friend. His gaunt chin worked nervously and there were tears in his dim old eyes.

"What's the matter with Smith?" said a dark, slight man, as he noticed the old man's agitation.

"Oh, he's whining about that mortgage, as usual," said a bystander.

"What mortgage?"

"Why, the one on his farm. He retired from the stage awhile ago and bought a farm. Well, he got into some trouble, of course, and had to put a mortgage on it. He's got to pay up now or lose his farm, and I guess it's a case of 'lose' by the looks of him. Poor old chap, it is too bad, but fortunes of war, you know." The dark man made no comment.

The next day the old actor received a letter.

"Dear Smith," it said, "I heard you were in trouble. Do you remember doing me a favor once? Here's the amount of the mortgage. Please oblige me by keeping this matter quiet." And the letter was signed "Edwin Booth."

## STALL AND PEW ALIKE.

A Marketman's Lease of a Stall Like a Seat Rented in Church.

The question as to what estate or interest a lessee has in a market-house was decided for the first time in Pennsylvania in an opinion handed down by Justice Williams in the supreme court lately, in the case of John T. Strickland appellant, against the Pennsylvania railroad company, an appeal from court of common pleas No. 2 of Philadelphia.

The company took the market-house at Seventeenth and Market streets as a site for part of their terminal improvements, after tendering the market company a bond to secure damages. They then turned Mr. Strickland out of his leased stalls in the market-house, and he brought the suit to recover damages for his ejectment. Justice Williams affirms the decision against the lessee of the stall and says: "His right resembles that acquired by a pew-holder in a church. Such a holder has no interest in the land under his pew or the building above or around it that abridges the power of the church to remove or take down and rebuild their place of worship."

## Corrected His Mistake.

As long ago as the time when Justice Lamar was a senator, he got on a bob-tail car in Washington, took a quarter from his pocket, and, with thoughts intent on far-away things, dropped it into the box.

"Why, senator," exclaimed a fellow passenger who knew Mr. Lamar and had noticed his mistake, "don't you think it's a little extravagant to pay twenty-five cents for a ride when the fare is only five cents?"

"Why, that's a fact, that's a fact!" responded the senator, waking up from his day dream. Then he drew out a handful of change, carefully picked out a nickel, dropped it into the box and sat down, satisfied that he had rectified his mistake, and had not paid thirty cents for his ride.

## At an Irish Funeral.

That it is hard to get information out of an Irishwoman, over a certain age, is well known. I found it so when I approached a group of old women who were watching a funeral procession and inquired whose funeral it was. "Sure, sor, that's nobody's funeral," said she, "that's only a country funeral." What she meant was that it was only a funeral from the country passing through town, but no one but an Irishman would have understood her. I didn't, and turned to another old woman and asked the same question. "Arrah, go long an' don't be botherin' me," this one answered. "Sure an' it's someone as never died before."

## "L" CARS HAVE EARS.

Katie Could Not Bear to Hear Her Mistress Abused and Spoke Up.

The other evening when the New York L cars were crowded with parties returning from the theatres, a young and very short Irish girl boarded the train at Twenty-third street. It was impossible for her to reach a strap, and a gentleman rose and gave her a seat.

Presently the young woman became a forced and not uninterested listener to the conversation which he was carrying on with the friend who stood beside him. They were discussing the merits and weaknesses of certain friends of theirs, whom we will call Mr. and Mrs. D—.

Mr. D— was benevolent and ridiculously fond of his wife. Mrs. D— was good-hearted, but a very pushing sort of a woman, while the grown-up son was described as a most selfish young man, with more criticism of the sort that some of us bestow so liberally upon absent friends.

"Sure mem," said Katie the next day, when she was relating the incident to her mistress, "I never knew before how bad yez are."

Her mistress laughed heartily, when the faithful girl resumed:

"Well, I gave thim a pace av me mind. When I cudn't kape still any longer I jist sed: 'Here's yer seat, sor. I've lived with thim puple yez'e a-talkin' av ever since I came from the ould counthry, and I'll not sit and hear 'em abused.'"

Moral: L seats have ears.

## A CHINESE LEGEND.

A Combination of Figures Which Made a Young Lady Sad.

She was visiting her brother's house and, happening to stroll into the library, she noticed the combination "3-6-8" marked with pencil on a card that hung on the wall. Instantly she grew indignant, for she was a most religious maiden and was very fond of her brother, whom she considered, indeed, a model young man. Quick to arrive at conclusions, she immediately sought him out and gave him a lecture on the wickedness of policy playing.

All the while that she was imploring him to give up the pernicious habit, he maintained a stolid indifference which sorely aggravated her. When she had spent her fury he burst into a loud laugh and explained the meaning of the mysterious figures. Every time he had sent his laundry to the Chinaman he had lost pieces of linen, and, as he had never counted the number he had sent, he had no redress. He had determined, therefore, to keep a record of the different articles he sent to be "done up." The "3-6-8," he explained, represented three shirts, six pairs of cuffs and eight collars.

Now his sister likes him better than ever, and since that day she has never been induced to listen to anything derogatory to him.

## HE GOT THERE.

Wouldn't Miss Prayer Because He Was Not in Full Dress.

A good story about Professor Tucker, formerly of Bowdoin college, is told:

About the year '61, when he was "Tutor" Tucker at the institution, the bell rang for prayers at the chapel, as now, very early in the morning, and it was imperative upon tutors and pupils to respond.

As a tutor Mr. Tucker was very popular, although very strict, and he was always prompt to take his place at the head of his class at the early morning devotions.

One morning, however, he found his clothing gone and his door nailed while the bell was ringing.

Finding a hatchet he soon split the door down and at the last stroke of the bell appeared, clothed in his shirt and a pair of overalls, barefooted, but with a smile of serenity on his expressive countenance. He took his customary place and neither then nor afterwards were words of complaint heard from him.

## A Student of Mankind.

Mrs. Minks—There! There is another torn silk handkerchief that my husband has stuffed into the rag-bag. That is the last of the half a dozen he bought last year or year before, and he put them all in the rag-bag himself. Now wait.

Sister—What for?

Mrs. Minks—In about a week you will hear him raving around wanting to know what has become of that half a dozen new silk handkerchiefs he bought only a few months ago.

## Astrology Not Needed Here.

When a young man who has had the good fortune to secure a salary of a hundred dollars a month enters a circle of gay livers who have incomes of \$5,000 or \$10,000 a year, there is no need of an astrologer to predict the end. But should not some of the guilt of the falling one be charged to those who entice him into an association which he cannot enter without wrong-doing?

## Extremely Courteous.

A good example of the extremely courteous in public correspondence was the notice sent to Charles James Fox that he was no longer a member of the government of George the Third. It read thus: "His gracious majesty has been pleased to issue a new commission in which your name does not appear."

## Not One of His Accomplishments.

A distinguished bishop of the Episcopal church, arriving late at a small town one night, found the hotel closed, and hammering at the door for admission, a neighbor stuck his head out of an adjoining window with, "Say, stranger, knock like h—l!" to which the bishop replied: "I don't know how."

## WHAT SHE KNEW ABOUT DOGS.

A Trick That Cost the Office Boy Money and Peace of Mind.

Nick is an office boy employed on Broadway, New York. He turned up in the office last winter with an ungainly looking cur hanging on to a tattered rope which he had improvised from some remnants in the ash barrel. The chief clerk shook his head resolutely at Nick's proposition that the canine should become one of the office staff. Nick said it was too cold for thoroughbred dogs to be wandering about without a home. The clerk said that it was a cur and had better die anyway, so Nick lead his acquisition off into the street. He was looking about as dejected as the cur, when a lady met him who looked as if she might have picked up her information about canines at the dog show. She accosted Nick and asked him what he would take for the dog.

"Seventy-five cents," said Nick. The woman took out a half dollar and compromised. Then she led the dog off in triumph.

When Nick got back to the office the chief clerk said to him: "Nick, you're in luck; there's a \$10 reward offered in the Herald this morning for your dog." Nick began to feel giddy. "The description tallies exactly. Take it around to 13 Irving place and get your \$10," added the clerk. Nick slid out of the office without making any reply, and just as he reached the steps of No. 15 he met the woman who had bought the dog coming down with a new \$10 bill in her hand and a smile on her face which made Nick go off and kick himself all over.

## SLEEPING ON MANTELS.

A Folding Bedstead Was a Freak He Could Not Understand.

"What kind of a hotel is this—to put a man in a room that has no bed?" said the guest.

"And what kind of a man is it—ye are to call for a bed wid as handsome a bed as ye ever saw right there before ye's face and eyes?" said Nora.

The man looked at her and then around the room.

"See here, I don't want any sass from you. I'm tired and want to go to bed. And if I don't get a room with a bed in it right off I'll make things fly."

"Sure, now, you can take sass from me and get sinse for yeesself while ye pull down that bed that's against the wall—do it yeesself and learn something."

"There's no bed here and you know it. I'll go to the office and see if a man is going to be treated this way. Get out of my way."

And he pushed Nora aside and started down the hall. Nora stood with her arms akimbo.

"Did I ever see the loikes o' that? The man in his own country don't know his own bed. Sure, it is long time before crossing that I knew them American beds. Come back, come back, I say, and I'll show you something, though it's from the Green Isle I am."

But the man would not listen. In a few minutes there was a combination of Irish brogue, Indiana dialect and clerk culture. Culture and brogue and the "American bed" must have won the battle, for in a short time everything was quiet on the Potomac.

## A SPOONEY FAD.

How the Harvard Boys Gobble Up the Silver Tea-Stirrers.

The fad for collecting spoons for souvenirs has ramifications little dreamed of by those who toy curiously with the quaint little product of the silversmith's art, as they sip out of dainty porcelain the fragrant brew from my lady's tea-ball.

Harvard boys are faddists as well as their sisters and sweethearts, but they do not seek the uttermost ends of the earth for their treasures. The famous and hospitable hostilities of the neighboring Hub are where they carry on their depredations. The more thoughtful and honest first make sure that the obliging waiter does not have to replace the missing article, and then they slyly slip a fork or a spoon into a pocket, and no matter what the check may amount to, the spoony sophomore is happy, for he has added another to his collection with which to mystify his fair friends.

This accounts for one who at a little spread took tea from an Adams House spoon and salad from a fork bearing the word "Parker's."

If the student has been industrious, every individual of a party of a dozen uses silver from a different hostelry.

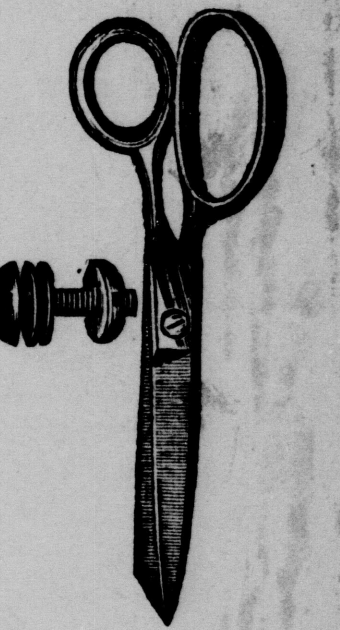

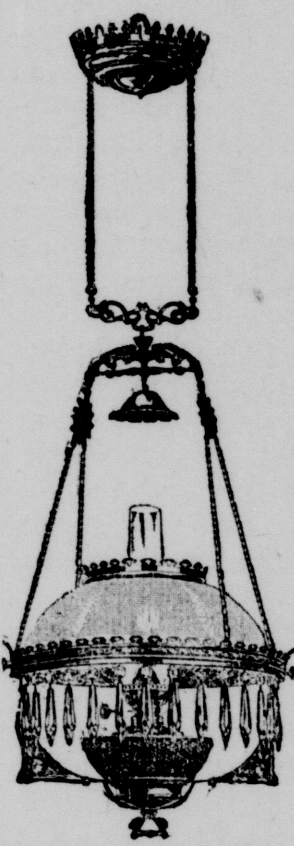

## Women Doctors.

Russia boasts of over 300 women doctors and America claims about the same number of women undertakers. Fortunately the two countries are widely separated or one profession might be considered responsible for the other. Those that are wealthy in the lugubrious profession—and everything is a profession now from plumbing to philosophy—are embalmers as well, and receive generous compensation for their service. One can imagine how even the ghastly offices to the dead may take on a tenderness of ministrations when performed by quiet, gentle women that would be grateful to the bereft. But what of the women themselves? Men undertakers are proverbially jolly and philosophical, but women are naturally given over to melancholy.

## Hardness of Copper and Zinc.

An interesting fact concerning the relative hardness of copper and zinc has been brought to light by means of M. Paul Jannetaz's new soleometer. Most authors regard zinc as harder than copper. If, however, the metals are examined in a sufficiently pure state, it appears that copper is the harder of the two, this removes an exception to the rule, that the harder the body the less its atomic volume.
